Privacy - Part 1

Introduction to Privacy - Read Aloud

Your information is private and should not be shared Online.

Different people could try to take your information and use it. Sometimes these people are dangerous or use in bad ways.

Step 1: Answer Questions.

Should you tell strangers your name?

How about your favorite color?

How about your address?

Privacy - Part 2

Step 2: Work with Friends

Write a list of information you should not share Online. Check your list with three other peers. Try to write as many things as you can think of.

Privacy

What information should you not give to strangers?
Write some of your ideas below.

Example: NAME

All done? Choose a different color. Talk to your friends and teacher and add some extra words your friends had.
